Animated Logo

Animatia de inceput(intro-ul) este o tranlatie, textul coborand progresiv si crescandu-si opacitatea si claritatea. Aceasta fiind continuata de un zoom out al textului succedat de un zoom in al logoului care prin efectul de Optic Compensation apare prima data sub forma circulara iar pe masura ce se mareste incepe sa isi capete forma lui normala.

Animatia de final(outro-ul) reprezinta disparitia logoului pe layere. Am despartit logoul in trei layere si le-am animat individual adaugand pentru fiecare layer un "perete"(new solid) in spatele caruia sa dispara. Pe rand fiecare layer urca de la pozitia initiala pana ce ajunge in spatele "peretelui" si va disparea. In timpul urcarii opacitatea va scadea pana la 0 si apare un efect de blurare care creste in intensitate.
